

## 4/9 is Dump Don Imus Day!

I'm sure by now, everyone has heard about the Don Imus disrespect of the sisters from Rutgers. But incase you missed it:

There should be collective effort of individual responses that to have Imus fired like jamming the phone lines first thing Monday morning, sending emails and faxes demanding that he be immediately fired! We must show the "powers that be" that they are not dealing with one Black "leader" or organization (they have already mastered how to deal with that).

From now on they are dealing with the entire Black Nation who will respond individually and collectively across the planet anytime we are disrespected.

I know that there will be some who will try to realionalize inaction but as a wise Brother once told me, you can have a hundred reasons not to do something but you only need one reason to do something.

Here is some info I pulled of the net
