

Afrikan Name Change
WHY IS THIS IMPORTANT?

"The names Afrikans have taken since being captured and distributed throughout the western world are, for the most part, merely labels for identification.

Our names should summarize and where possible, carry the energies of the virtues that we must cultivate for the realization of our destiny.

When an Afrikan person carries her or his own name, and knows the meaning, every time his/her name is called out, a subtle but powerful energy is sent to the person to strive to live up to ideals of her/his name.

It is important to remember that only in Afrikan Tradition are our culture and art forms preserved for ourselves, our children, and our future.

Our cultural philosophy and various art forms are mandatory for us to exist and progress as a dignified and respected people.

We must do research to make sure our children (to the best of our knowledge) have pure Traditional names.

With that said Nu Afrikans!

Break the Chains on your mind and reclaim your Afrikan names.

Ashe!"
